* The refund is based on the one way fare price of the NS-route that was taken. For NS Flex-discount subscriptions the fare price including calculation of off-peak hours discount (if relevant) applies. During full discount periods calculation is based on the full-tariff one way fare price.

** Calculation based on monthly subscription price. Outside of the full discount periods of the subscription the refund is based on the one way fare price of the NS-route that was taken, with calculation of off-peak hours discount if relevant.

*** For all NS-Business Cards with a subscription (Dal, Traject Vrij en Trein Vrij) the refund is based on the fare prices with 40% discount if check-in takes place in off-peak hours.

**** Refund will only be granted on the part of the ticket that applies to NS routes.
