

Voorwaarden NS PriceTime Deal

Valid from 23 July 2024

An NS PriceTime Deal lets you buy a one-way ticket (an E-ticket) before the journey date at a variable discount. This discount can be up to a maximum of 60% compared to the regular full fare for a one-way ticket and it applies only to journeys made with NS. The discount you receive from NS depends (among other things) on how far in advance you purchase the E-ticket using NS PriceTime Deal (known as the 'advance booking interval'), how crowded the route is expected to be, the chosen time slot and the journey date.

NS PriceTime Deal is being introduced by NS Reizigers BV (hereinafter "NS") in various phases:

The second phase commences on July 23, 2024. Just like in the first phase, discounts are applied to tickets for off-peak travel on specific NS routes. These discounted tickets must be purchased at least one calendar day before the planned journey date. The discount amount is determined by factors such as the advance booking period and the specific NS route. The advance booking period is a maximum of 30 days before the journey date. In the second phase, the discount amount during off-peak hours depends on the selected time slot on the relevant travel day (weekday or weekend day).

These terms and conditions apply to the second phase of NS PriceTime Deal.

Artikel 1. Phase 2

1.1 The discounts given during the second phase range from 5% to 60% of the regular full fare for a one-way ticket on the NS route in question and depend on the day, the route and the advance booking interval before the journey date.
